

## Adolescent Immunization Webcast

June 2, 2009

### Viewing Sites

**Please Note: If your organization is interested in serving as a viewing site, contact Courtnay McFeters at [McFetersC@michigan.gov](mailto:McFetersC@michigan.gov) as soon as possible. By "viewing site" we are referring to external people that are coming into your organization's conference room to watch the webcast with you. If you are simply setting up a viewing site for your co-workers and fellow staff members, then you do not need to be listed on the viewing site directory below.**

The Adolescent Immunization Webcast is approaching quickly, and over two dozen Michigan local health departments have volunteered to serve as viewing sites!

The viewing sites are being coordinated in order to give health care providers an opportunity to network. This will offer an invaluable opportunity for immunization providers from diverse settings and backgrounds to watch the program together.

The following organizations will serve as viewing sites for the June 2 Adolescent Immunization Conference. If you do not find a location that is close to you, it is possible to view the webcast on any computer (provided that your computer meets the specifications that we have outlined in separate documents). However, if there is a site within a reasonable distance of your location, we are hoping that you will take advantage of this opportunity to network with other providers.

If you plan to watch the Webcast at one of these viewing sites, **please contact the Site Coordinator listed below.** You do not need to copy Courtnay McFeters if you plan to watch the Webcast at a local viewing site – it is only necessary to contact the Site Coordinator.
